

4th January 2021

**Elite Precast Concrete Ltd – COVID 19 announcement**

In light of the recent guidance issued by our Prime Minister and Secretary of State for Health and Social Care (Matt Hancock), Elite Precast Concrete would like to make it clear to our employees, suppliers and customers that we remain open and operational.

Elite are, of course, rigorously following the Government guidance to minimise the risk to our staff, suppliers and customers and of course all of those that can work from home have been asked to do so.

However, Elite are also following the Government guidance (issued by Matt Hancock on the 24th March and reported by the BBC) that stated *“those who cannot work from home should go to work to keep the country running”*

Elite have been specifically requested to maintain our ability to manufacture and supply precast concrete by a number of organisations, who in turn, provide essential services to government, health care, military and telecommunications organisations along with vital utility providers (such as water, gas, and electricity).

There has been a huge amount of misinformation and confusion on a variety of social media and news networks and it is for this reason that we felt it necessary to state our position clearly.

Elite will of course continue to be strictly guided by both Government guidance and the needs of our clients who are playing their part in keeping the country running (see above).

Richard Doody

Company Director
