- Weight is based on 2350 kg/m³

- Lifting system is by means of a 170mm long spherical pin anchor rated at 2.5 tonnes with a safety factor of 3 (located in the top of the block).

- Lifting is achieved by use of a 2.5t rated pin anchor ring clutch or combination ring clutch only and should comply with the Lifting Operation & Lifting Equipment Regulations 1998 (LOLER).

(Always located, 2.5 tonne spherical pin anchor is used for production purposes only).

2. Concrete

- Characteristic 28 day cube strength = 50 N/mm² min.
- Concrete is Class A1 Fire Resistant in accordance with clause 4.3.4.4 of EN 13369.

3. Manufacture

- Manufactured to: BS EN 13369 : 2013
- Tolerances to: BS EN 13670 : 2009

4. Physical & Chemical Properties

- Appearance: Grey in Colour
- Other Chemical Properties: Not Applicable

5. Design

- Design Life: >100 years

6. Manufacture Tolerances

- Length ± 5mm
- Width ± 5mm
- Height ± 5mm
