Energy Policy Statement

Declaration of Commitment

As part of its environmental strategy, Elite Precast Concrete Limited is committed to responsible energy management and will practice energy efficiency throughout its sites, plant and equipment, wherever it is effective to do so.

Policy

The policy of EPCL is to control energy consumption in order to:

- Avoid unnecessary expenditure,
- To improve cost effectiveness, productivity and working conditions,
- Protect the environment.

Objectives

EPCL's long-term objectives are to:

- Buy fuels at the most economic cost,
- Reduce the amount of pollution, particularly CO₂ emissions, caused by its energy consumption,
- Reduce the loss of energy from our buildings to the minimum practical level.

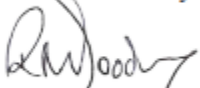

Accountability

- To encourage employee awareness and liaise with senior management for support to meet the requirements of the Energy Policy,
- Staff and employees to be made aware of the cost of energy directly under their control to encourage good housekeeping practices.

Review Procedures

- Management to submit a report on the achievement of energy targets and any energy savings projects undertaken.
